INTRODUCTION

UKATA was created by those in the industry who had the vision and belief that it is possible to improve and maintain higher standards for asbestos training through an Association.

UKATA is governed by a Board of Directors, all of whom are members of the Association. The Directors work tirelessly towards the common goal of continually looking at ways to raise standards of asbestos training whilst supporting the current membership in maintaining the standards already set by UKATA.

Since inception in 2008, UKATA has established a robust process of verifying the competency of Tutors. Members are the foundation of UKATA, with Tutors being the cornerstone.
